Developer Tools: VS Code, Visual Studio, Sublime Text, npm, Git, GitHub, Vercel, Figma, Adobe XD.

WORK EXPERIENCE

Cane Technology, Pakistan

06/2023 – 9/2023

Front-End React JS Intern

- Created responsive and dynamic user interfaces using React.js enhancing the user experience across various devices and browsers.
- Utilized Redux for state management, ensuring efficient data flow and improved application performance.
- Integrated React Hook Form for streamlined and efficient form handling, validation, and error management.
- Utilized React-router-dom to implement client-side routing, enhancing navigation and user experience.
- Worked closely with cross-functional teams, demonstrating strong communication and problem-solving skills to meet project deadlines.
- Proactively engaged in learning new technologies and frameworks to improve skills and stay updated with industry trends.

PROJECTS

MovieBox Website

Static Movie Box website using HTML, CSS, Bootstrap and JavaScript to showcase movie information and trailers, demonstrating proficiency in front-end web development technologies

Exclusive Ecommerce Website

E-commerce dynamic website utilizing HTML, CSS, JavaScript, and Tailwind CSS, enabling users to browse and purchase products online, showcasing skills in responsive design and client-server interaction. Dynamic web applications, including a Weather app, To-do list, and visually engaging landing pages. Utilized HTML, CSS, JavaScript, and Tailwind CSS to create interactive interfaces and seamless user experience.

Fake Store

Building a Fake Store using the Fake Store API in React JS and Tailwind CSS to dynamically fetch and display data on a web page. Experience seamless browsing as products populate in real-time, showcasing expertise in integrating APIs for dynamic content delivery.

Currency Converter

Developed a currency converter in React.js, leveraging useState, useEffect, and custom hooks for dynamic functionality. With Tailwind CSS, seamlessly swap between currencies like USD to INR or vice versa, offering a user-friendly and responsive experience.
